## ALL EXCEPT OLCOTT OPPOSE WEST'S PLAN

State Desert Land Board's Majority  
Opposed to Irrigation of Public  
Lands by State.

CRAWFORD TELLS WHY HE  
IS OPPOSED TO SCHEME

Thinks It Should Wait Until Federal  
Government Has Expended Amount  
Secured From State.

With a declaration against it by Attorney-General Crawford today, all members of the State Desert Land Board, with the exception of Secretary Olcott, have gone on record against West's plan of irrigating public lands by state and federal co-operation.

State Engineer Lewis favors an amendment to the constitution providing for the issuance of state bonds for aiding the work, State Treasurer Kay is opposed to the state spending money for the irrigation of lands, believing it should be done by the federal government, and Attorney-General Crawford says he opposes the state doing the work until the federal government has expended as much money in this state for reclaiming lands as it has obtained from the sale of lands here. He says money secured from that source has been used in reclaiming lands in other states.

"I oppose the plan suggested by the governor to purchase the north canal unit of the Central Oregon Irrigation company's project and complete the work," said the Attorney-General, "for the reason that the remainder of the system is not yet satisfactory."

The company has agreed to turn back to the state the north canal unit if the state will reimburse it for what it has spent on the work, which is estimated at about \$300,000. It has been said that the unit could be completed for about \$400,000 more.

State Engineer Lewis has complained that the seepage is too great in the work that has been completed by the Central Oregon Irrigation company, which Attorney-General Crawford refers to in saying the work is not satisfactory.

## WEST PUTS IT UP TO PORTLAND TO SAY AN EMERGENCY EXISTS

Governor West this morning received a copy of resolution 7314 of the city council of Portland, a copy of which appears below, and which sets forth that the city of Portland is unable to cope with the situation, and asks the governor to provide relief. The resolution is as follows:

"Whereas, There is a large number of unemployed men without means of support in the city of Portland, and, whereas, The city of Portland is now giving employment to as many of such men as its resources will permit; and

"Whereas, Governor Oswald West has recently stated that he, as governor, could give employment to these men, so as to relieve the situation and their needs; therefore be it

"Resolved, That the governor be and he is hereby respectfully requested to take such action toward relieving the situation of the unemployed of this community as he may deem proper and to the best interests of the city of Portland and the state of Oregon.

"Adopted by the council.

"Auditor of the City of Portland." To this the governor wired the following reply:

"January 24, 1914.

"To the Honorable Mayor and City Council, Portland, Oregon:

"Copy of your resolution number seventy-five fourteen regarding unemployed situation just received, and is interpreted to mean that an emergency exists in reference to the situation, and one with which your honorable body is unable to cope, and that it is necessary and your wish that the state, through my office, take prompt steps to relieve the situation. If this is your wish please answer by wire, in order that we may lose no time in meeting the situation. Our plan will call for the incurring of an expense which will have to be met by the coming legislature, and in this we would, of course, expect to have your endorsement."

## POLISH-AMERICANS PLAN NATION'S REHABILITATION

(UNITED PRESS LEASED WIRE.)

Chicago, Jan. 24.—Adopted American citizens who revere the names of Sobieski and Kosciuszko as heroes of their native land today are rapidly spreading in this country an organization, under the title of the Polish National Council of America, which has begun a vigorous warfare on alleged cruelties and brutalities inflicted on the people of dismembered Poland and their alien Russian, Prussian and Austrian rulers. This organization has established main press bureaus in Chicago, London, Paris, Rome, Bern, Lemberg and Cracow, whence are issued statements citing instances of mistreatment of Polish natives. The council collects funds and employs agents in many towns throughout Poland who secure data and information of specific acts of injustice and forward them to the nearest press bureau for use. The organization is being pushed, and in time, it is hoped to be able to frame an issue on which the sympathy of the entire civ-

## A HAPPY CHILD IN JUST A FEW HOURS

When Croup, Constipated or if Feverish  
Give "California Syrup of Figs"  
Then Don't Worry.

Mothers can rest easy after giving "California Syrup of Figs" because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When croup, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it and it cannot cause injury. No difference what ails your little one—if full of cold, or a sore throat, diarrhoea, stomachache, bad breath, remember a gentle "laxative cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

ulation, the council argues, which attacks Padewski in calling on the Poles in Galicia to make some effort to retain control of business ventures and channels in their land, Padewski, was not giving vent to anti-Semitic spirit in his utterance, but endeavoring only to rouse the Polish spirit to dispute another item in their subjection.

The Polish National Council of America, it was announced today, will soon establish an office at Washington, D. C., and an attempt will be made to interest the American people in the fight for freedom being made by this race, once the proudest in Europe.

## HERPICIDE IS THE "ORIGINAL" DANDRUFF GERM DESTROYER

Just because you happen to see or hear the statement somewhere that another preparation will kill the dandruff germ, stop falling hair and is just as good as Herpicide, don't be fooled and allow yourself to be swindled out of your money.

You want Newbro's Herpicide, the remedy that has been tried, has stood the test of time and now has more satisfied users than all other similar preparations combined. An attempt to sell you something else is merely another effort to profit from the good name established by the only "genuine dandruff germ destroyer."

Herpicide adds gloss and beauty to

the hair, keeps the scalp free from dandruff and prevents the hair from falling out. It stops itching of the scalp almost instantly.

It may be claimed that other hair remedies will do the same things, but Herpicide really does them. Its years of success prove this.

### SALEM TEAM MUCH LIGHTER THAN OREGON AGGREGATION

Bezdek's New Defense Proves Impregnable and Yellow Jackets Are Kept Away From Basket.

Oregon University's basketball team toyed with the lighter Yellow Jackets last night, running up a score of 40 to 6. The Yellow Jackets bagged a field goal in each half and gleaned their remaining two points on foul throws. Bezdek's new defense proved impregnable, the Oregon players keeping the ball away from their own basket and forcing the Salemites to shoot at long range. Oregon, on the other hand kept up a constant fire at the opponents' goal, but showed bad marksmanship.

The first half ended with the score 22 to 3. Bezdek worked two men in each position using his second string the last half. Captain Fenton again starred for Oregon, scoring 18 points. O. C. Sims, ex-captain, played brilliantly at guard and shot three field goals. Huggins, a former Oregon athlete, played the strongest game for the Yellow Jackets. This is the last appearance of the Oregon team before its trip north to meet Washington, February 6. The line-up:

Yellow Jackets—J. Schott (2), and Brink, forwards; H. Schott (4), center; Gage and Huggins guards.

Oregon—Wheeler (2) and Wolcott (4), forwards; Fenton (18) center; Bradshaw (2) and O. Sims (6) guards.

Substitutes—L. Bigbee (4) for Wheeler; Stevenson (2) for Fenton; Rice (3) for O. Sims; Ferney for Wolcott; H. Sims for Bradshaw. Goal from foul line—Fenton 4 out of 5 chances; H. Schott 2 out of 6 chances.

The fifth round was Sally's, but in the sixth White had his opponent groggy. Salvatore finished the eighth, ninth and tenth with a burst of speed.

## TIME CLOCK FOR STATE EMPLOYEES POSSIBLE

A time clock for state employees is a possibility. Secretary of State Olcott is experimenting with different brands of instruments, with a view of installing one for the janitor service in the state buildings, and he says he may eventually have one for his office force. Mr. Olcott overlooks no opportunity to praise the state employees directly under his control, but he believes in adopting modern methods of proved advantage.

"I am confident the employees of this department are as competent and conscientious as any that ever served a state," said Mr. Olcott, "and if I should adopt the system it would be for convenience. I am simply making an investigation of it."

## THEY SAY THIS NUTTY TALE IS TRUE

(UNITED PRESS LEASED WIRE.)

Washington, Jan. 24.—"Nuts" and "Anti-Nuts" is the way strangers and frequent visitors to the White House grounds are classified. The squirrels who live in the trees that guard the approach to the president's house have made the classification. Here's how the White House attaches say they know the story is true.

The squirrels, according to White House attaches, can spot a stranger the minute one enters the grounds. They have got to know the small army of newspaper correspondents, congressmen, foreign diplomats and others who make frequent trips to the executive offices. They are said to have been able to make their distinction, because the strangers, having learned about them, always bring peanuts and other "goodies" to feed to them. The frequent visitors, being on business bent, don't have the time to stop and feed the squirrels, and the little animals know it. They will perform all sorts of tricks for the strangers in the hopes of getting nuts and "goodies," such as climbing up their clothing and sitting on their shoulders and begging for nuts. They pay no attention to the frequent visitors. At least White House employees say so.
